Oral Practice Exam

Section One: Sight Translation

Part 1: English to Target Language

Directions:

You will be allowed three minutes to complete this part of the oral test during the actual oral exam. Therefore, you should try to complete the following practice within three minutes. You may silently review the text before you begin your oral interpretation, but the review time should be part of the three minutes. If, when you are translating, you come to a word or phrase you don't know or have just blanked out on, give it in English and go on so that you don't waste much of your time on those words or phrases. Now, please orally translate the following text into the target language you will be testing for.

Information and referral may involve a single contact between the worker and the enrollee or may involve one or two additional contacts. However, if the number of contacts increase and there is evidence of a more intensive service need, there may be need for a different method of service delivery. Careful judgment is necessary on the worker's part to determine whether crisis intervention or case management services are necessary. Assessing the boundaries between these professional activities is part of the trained judgment the worker brings to the relationship.

Section One: Sight Translation

Part 2: Target Language to English

Directions:

You will be allowed three minutes to complete this part of the oral test during the actual oral exam. Therefore, you should try to complete the following practice within three minutes. You may silently review the text before you begin your oral interpretation, but the review time should be part of the three minutes. If, when you are translating, you come to a word or phrase you don't know or have just blanked out on, give it in the same language and go on so that you don't waste much of your time on those words or phrases. Now, please orally translate the following text into English.

Конфиденциальность - это система взаимоотношений между клиентом и учреждением при которой клиенту гарантируется, что он будет огражден от неуместного разглашения известных учреждению сведений. Конфиденциальность - это не обязательство о неразглашении тайны между клиентом и работником учреждения. Каждый клиент имеет право на конфиденциальность в его взаимоотношениях с учреждением. Конфиденциальность - это основа для построения отношений доверия между работником учреждения и клиентом. Такое доверие необходимо для оказания эффективных социальных услуг. Федеральные законы и законы штата защищают клиента от неуместного разглашения частных сведений, полученных в процессе осуществления программы. Конфиденциальность является деликатным вопросом в сфере государственного управления, поскольку право на защиту частной жизни граждан является принципом, соблюдаемым совместно с правом общественности на доступ к информации о деятельности государственных органов власти.

Section Two: Consecutive Interpretation

Directions:

Following is a practice exam of consecutive interpretation. You will need an audio cassette player for this practice. On the tape, you will hear a dialogue between two people attempting to communicate in each other's language. Your role is to interpret for both speakers. You will hear a "buzz" after each person finishes speaking. This is your clue to begin interpreting.

When the person speaks in English, your job is to interpret what you heard into your target language. When the other person replies in your target language, you need to interpret that reply into the English language. Remember, rather than attempting to memorize word by word what is being said, concentrate your attention on the message that is being relayed. Capture the meaning as completely as possible. Do not omit, embellish or change its content.

Now, please practice interpreting the dialogue on the audio tape.

..... (practicing consecutive interpretation exercise)

After you are done practicing the consecutive interpretation exercise, **stop your cassette player and read the directions for Section Three.**

Section Three: Simultaneous Interpretation

Directions:

Following the consecutive interpretation exercise on the tape are two recordings, both in the English language. You are to simultaneously interpret what you hear in the recordings into your target language. If you want to record your own voice with a second audio recorder, you will need to use a headphone or earphone to listen to the recordings. This way, the recorder will only pick up your voice but not the voice in the recordings.

Now, please go on to simultaneous interpretation exercise on the audio tape.

..... (practicing simultaneous interpretation exercise)

NO NOT GO ON TO NEXT PAGE UNTIL YOU FINISH LISTENING TO THE CONSECUTIVE AND SIMULTANEOUS EXERCISES ON THE TAPE!!

Section One: Sight Translation

Part 1: English to Target Language

Предоставление нужной информации и направление в соответствующие инстанции может быть осуществлено за одну встречу работника с записанным в программу лицом, а может потребовать одной или более дополнительных встреч. Однако если количество встреч увеличивается и появляется свидетельство того, что необходимо предоставление более интенсивных услуг, может возникнуть потребность в ином методе оказания услуг. От работника требуется тщательная рассудительность с тем, чтобы определить в каком виде услуг нуждается клиент: во вмешательстве с целью предотвращения кризисной ситуации или же в услугах куратора личного дела. Определение границ между этими двумя видами профессиональной деятельности является частью той умелой рассудительности, которую работник применяет в своих взаимоотношениях с клиентом.

Part 2: Target Language to English

Confidentiality is a relationship between a client and the agency which guarantees the client is protected against improper disclosure of information known to the agency. Confidentiality is not a bond of secrecy between client and worker. All clients have the right of confidentiality in their contact with the agency. Confidentiality is the basis for the development of trust between worker and client. Such trust is essential to the provision of effective social services. State and federal laws protect client from improper use of the personal information obtained in the process of program administration. Confidentiality is a sensitive issue in government because the right of the individual to privacy is a principle observed concurrently with the right of the public to have access to information about the conduct of his government.

Осмотр включает в себя наблюдение за пациентами, опрос пациентов и персонала, проверку документации, а также наблюдение и оценивание процедур и окружения пациентов.
- Client:** Что я могу предпринять, если у нас появится жалоба по поводу ухода за моим отцом?

- Interpreter:** What can I do if we have a complaint regarding the care my father is receiving?
- Worker:** You should take your complaint to the nursing home in which your father is residing, and if the problem persists, then you should take your complaint to a service worker of Aging and Adult Services.
- Interpreter:** Вам следует адресовать свою жалобу в тот дом для престарелых, где находится ваш отец, и если проблема по-прежнему будет оставаться неразрешенной, вам нужно будет направить эту жалобу в адрес работника отдела по обслуживанию престарелых и взрослых.
- Client:** Мне говорили, что у отца какие-то проблемы с его бумагами, и вполне вероятно, что ему могут отказать в услугах по программе «Медикайд». Что я смогу предпринять в этом случае?
- Interpreter:** I have been told that my father has some problems with his papers and that it is very possible he'll be denied Medicaid services. What can I do in this case?
- Worker:** You and your father have the right to request a fair hearing concerning the denial, reduction or termination of services, if you feel this is the case, you should act upon this request right away.
- Interpreter:** У вас и вашего отца есть право на то, чтобы запросить справедливое слушание касательно отказа в услугах, сокращения или прекращения оказания услуг. Если вы считаете, что именно это имеет место, вам следует предпринять соответствующие действия в связи этим запросом.
- Client:** У меня есть двоюродная сестра, которая работает в отделе по обслуживанию престарелых и взрослых. Как вы думаете, могла бы она просмотреть его бумаги и что-то предпринять в целях разрешения этой проблемы?
- Interpreter:** I have a cousin who works in Aging and Adult Services. Do you think she could review my father's papers and arrange things to solve the problem?

Worker: No; The policy of the department is that no employee shall work on cases of clients to whom they are related or with whom they have significant personal or non-official relationship, or a counseling relationship outside the department.

Interpreter: Нет, согласно инструкций отдела, его сотрудники не имеют право заниматься делами своих родственников или тех лиц, с которыми их связывают близкие личные или неофициальные отношения. Им так же не разрешается давать какие-либо консультации вне работы.

Client: Мой отец не говорит по-английски и испытывает трудности в общении с работником службы общественной помощи. Мог бы отдел по обслуживанию престарелых и взрослых предоставить ему переводчика?

Interpreter: My father does not speak English and has problems communicating with the social worker. Can the Aging and Adult Services Division provide him with an interpreter?

Worker: Yes; If the client has a language barrier, the department can provide a interpreter and other appropriate aids at no cost.

Interpreter: Да, если у клиента имеется языковой барьер, отдел может бесплатно предоставить переводчика и любых других соответствующих специалистов.

Client: Спасибо вам что прояснили для меня эти вопросы. Я уверен, что полученная от вас информация мне очень поможет.

Interpreter: Thank you for clarifying the questions I had. I'm sure that the information you gave me will help me a great deal.

Worker: You're welcome. I'm glad to know that I was able to help.

Interpreter: Пожалуйста. Мне приятно осознавать, что я смог вам помочь.

Section Three: Simultaneous Interpretation

Recording 1:

Напоминаем, что административное заседание по этому делу состоялось 10 февраля 1993 года под председательством Томаса Джейкоба Смита, старшего судьи по административному праву. Сегодня 16 февраля 1993 года. Мы опять ведем протокол судебного разбирательства по делу Джея Кэмпбелла. Господин Кэмпбелл, апеллянт, не присутствует в зале суда, однако Келли Роко, его адвокат согласно протокола суда, здесь присутствует, равно как и Эдвард Барос из Отдела по контролю за уплатой алиментов, представляющий интересы отдела социальных услуг и здравоохранения. Адвокат апеллянта хотел бы просить провести еще одно заседание по этому делу. Отдел социальных услуг и здравоохранения возражает против этого. Апеллянт представил на рассмотрение вопрос о необходимости сделать анализ крови для установления отцовства ребенка. В период зачатия ребенка господин Кэмпбелл находился в Германии, где было расквартировано его военное подразделение. После того как этот вопрос был обсужден с представителями управления генерального прокурора, представляется, что с учетом обстоятельств дела, было бы меньше необходимости в осуществлении анализа крови. Мнение Отдела сводится к тому, что даже если этот предполагаемый отец не является биологическим отцом ребенка, у нас по-прежнему остается нерешенным вопрос о его потенциальной гражданской ответственности как приемного отца с правом на воспитание ребенка.

Be it remembered that an administrative forum was held in this matter on 10th day February of 1993 before Thomas Jacob Smith, Senior Administrative Law Judge. It is today the 16th of February of 1993. We are back on the record in the matter of Jay Campbell. It appears that Mr. Campbell, the appellant, is not present, but his attorney of record, Kelly Roco is, and on behalf of the department is Edward Baros of the Office of Support Enforcement. The appellant's attorney would like to request another continuance in this proceeding, and DSHS is objecting to that. The appellant presented the issue of a blood test being necessary to establish paternity of the child. Mr. Campbell was stationed in Germany during the time of conception. After discussion of this case with Attorney General's Office, it appears that, due to the circumstances, there would be less of a need for a blood test. The department's view is that, even if this presumptive father is not the natural father of the child, we still have outstanding his potential liability as a custodial step father.

Recording 2:

Апеллянт - госпожа Луго - настоящим ходатайствует перед Апелляционным Отделом о пересмотре начального решения, датированного 2 декабря 1992 года, и его аннулировании, чтобы тем самым позволить ей получить доступ к компенсируемым государством психотерапевтическим услугам доктора Мэри Бей, доктора гуманитарных наук, согласно положений программы для категорически нуждающихся в медицинской помощи. Начальное решение было ошибочным, поскольку оно подтверждает отказ властей штата компенсировать доктора Бей за оказанные ею услуги, несмотря на то, что они были необходимы с медицинской точки зрения, на основании того, у нее частная практика и она проводила лечение пациента в своем собственном кабинете, а не в государственной клинике для душевнобольных. Это решение также несет за собой угрозу отрезать для нее единственный эффективный источник лечения посредством того, что апеллянту было ошибочно отказано в покрытии расходов за лечение по поводу ее расстройств, связанного с раздвоением личности.

The Appellant, Ms. Lugo hereby petitions the Office of Appeals to review the Initial Decision dated December 2, 1992 and reverse it, hereby permitting her to obtain state-reimbursed psychological services from Dr. Mary Bay, Ph.D., under the Categorically Needy (C.N.) Medical Assistance Program. The Initial Decision is in error because it upholds the state's refusal to reimburse Dr. Bay for services, even though they are medically necessary, because she is a private practitioner providing the treatment in her own office rather than in a community mental health center. The decision also has the effect by threatening to cut off the only effective source of treatment she has, of erroneously denying the Appellant coverage for treatment of her Multiple Personality Disorder.
